Learn How to Control Your Mind

Are you tired of shooting a few good shots and throwing others? Would you like to shoot perfect shots all the time? Let's face it, if you took all the emotions out of the shooting process, you would probably shoot perfectly. If you gain control of your mind, you can gain control of where your bullets impact. You will learn how to shoot with precision, and more importantly, you will learn how to shoot with accurate **consistency**. We will show you how to apply the same mental techniques used by Olympic Athletes and World Class Shooters. You will learn how to program motor-movements to the sub-conscious and utilize your mind for complete control of your emotional state. As an added benefit, the Mental Dynamic skills you learn in this class, can increase the overall quality of your everyday life.

Equipment: Pistol, Holster, and 200 rounds of ammunition.

Mental Dynamics Of Peak Performance

Class Size Limited • Pre-Registration Required.
